

“A place to flourish and grow”

EST.
2024

Welcome

We are excited to be presenting our brand-new provision, created at All Saints C of E Primary School, Sapcote. The Blossom Grove is a bespoke specialist provision created in September 2024 to meet the needs of children with communication and cognition learning difficulties in and around the Leicestershire area.

Focusing on children’s individual EHCP outcomes, we will be utilising therapeutic approaches to allow children to engage with activities and resources which facilitate their progression. A newly appointed class team with extensive specialist experience and training are looking forward to welcoming children to the provision.

We welcome parents and carers to visit the Blossom Grove by contacting the school to arrange a convenient date.

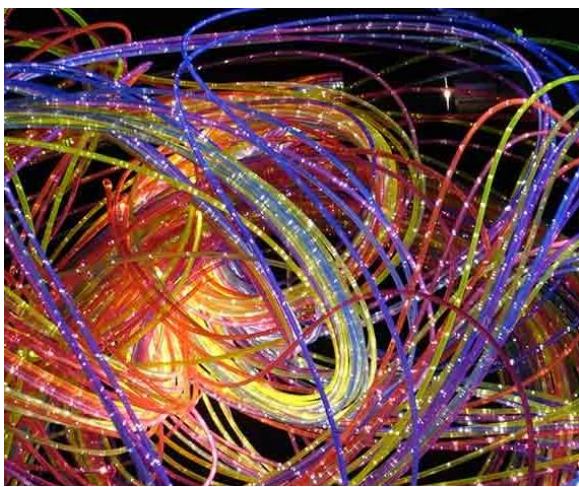

Our Core Beliefs

We place each individual child at the centre of their learning. Feedback from each child combined with views of their parents and involved specialists will dictate their learning journey.

Our Offer

The Blossom Grove will support children from Reception to Year two. During this time, children will be supported with their personal development alongside their relevant academic curriculums. Each year their progress will be reviewed and at the end of year two, we will support families to transition to the most suitable provision.
